# Index to the

# Aeronautical Engineering Review, Volume 14

## January–December, 1955

| | Month | Page |
|---|---|---|
| ADAMS, DAVE. Taming Titanium | *Mar.* | 59 |
| **Aerial Survey—** | | |
| Effects of the Systems Approach on Reconnaissance Equipment Design, Irving W. Doyle | *May* | 80 |
| Problems of Aircraft Construction for Electronic Magnetometer Survey or Detection, H. C. Wroton | *May* | 86 |
| Requirements of Military Aircraft Design for Aerial Photography, Brig. Gen. George W. Goddard, USAF (Ret.) | *Oct.* | 66 |
| **Aerodynamics—** | | |
| Aerodynamic Design of a High-Altitude Rocket, A. W. Peppers | *Apr.* | 43 |
| Canted Adjustable End Plates for the Control of Drag, Harry R. Clements | *July* | 40 |
| Effects of Boundary-Layer Control System Efficiency on Performance, Robert K. Wattson, Jr. | *Dec.* | 49 |
| Flight Research Utilizing Variable Stability Aircraft, Waldemar O. Breuhaus | *Nov.* | 49 |
| The Role of Fluid Mechanics in Aeronautical Development, G. N. Patterson and Staff | *Feb.* | 27 |
| Solved and Unsolved Aerodynamic Problems, K. E. Van Every | *Nov.* | 44 |
| Take-Off Ground Run of an Airplane with Forced Circulation System of Boundary-Layer Control, A. N. Petroff and R. K. Wattson, Jr. | *June* | 79 |
| Variable-Stability Airplanes in Lateral-Stability Research, William M. Kauffman and Fred J. Drinkwater, III | *Aug.* | 29 |
| **Air Transport—** | | |
| Air Traffic Control and the Turbojet Aircraft, Charles W. Carmody | *Feb.* | 56 |
| Allocation of Fuel and Cargo for Maximum Ton-Miles, A. N. Petroff | *Mar.* | 64 |
| Automatic Flight Control in Air Transportation, M. Gould Beard and Percy Halpert | *May* | 66 |
| Design Considerations for Cargo Aircraft, Winfield H. Arata, Jr. | *June* | 72 |
| Dinner Address at the Second National Turbine-Powered Air Transportation Meeting (*Editorial*), Peter G. Masefield | *Nov.* | 40 |
| Effect of Heavy Rainfall on Turbojet Aircraft Operation, James W. Useller, William Lewis, and Eugene V. Zettle | *Feb.* | 40 |
| High-Altitude Cabin-Pressurization Design Criteria Related to Future Transport Operations, L. M. Hitchcock | *Aug.* | 44 |
| Instrumentation for Jet Transports, Christopher Dykes | *Jan.* | 24 |
| The Problem of Routing Aircraft, Allen R. Ferguson and George B. Dantzig | *Apr.* | 51 |
| ARATA, WINFIELD H., JR. Design Considerations for Cargo Aircraft | *June* | 72 |
| AVERY, B. A. The Orenda and the Future | *Jan.* | 46 |
| BATES, CURTIS L. Pilotless Aircraft | *Apr.* | 56 |
| BEARD, M. GOULD, AND PERCY HALPERT. Automatic Flight Control in Air Transportation | *May* | 66 |
| BODLEY, HAROLD A. Advanced Education for Aeronautical Engineers | *Sept.* | 24 |
| BRADY, JOHN S. The Human Operator as an Aircraft Systems Component | *Oct.* | 86 |
| BREUHAUS, WALDEMAR O. Flight Research Utilizing Variable Stability Aircraft | *Nov.* | 49 |
| BRILMYER, HAROLD G. Fatigue Analysis of Aircraft Bolts | *July* | 48 |
| BUXTON, O. E. The Development of Oil-Cooled Generators | *Aug.* | 21 |
| CALLAGHAN, EDMUND E., NEWELL D. SANDERS, AND WARREN J. NORTH. Recent NACA Investigations of Noise-Reduction Devices for Full-Scale Engines | *June* | 66 |
| CARBONARA, VICTOR E. The Newest Instruments for Astronomical Navigation | *July* | 36 |
| CARMODY, CHARLES W. Air Traffic Control and the Turbojet Aircraft | *Feb.* | 56 |
| CARSON, W. G., AND E. N. ROBERTSON. Synthetic Fabric-Acrylic Resin Impregnates for Aircraft Canopy Edge Attachments | *Mar.* | 44 |
| CARTER, J. W. Graduate Study in Aeronautical Engineering | *Sept.* | 28 |
| CARVER, CHARLES E., JR., AND JOHN D. PIERSON. Hope for Rational Seaplane Design | *Dec.* | 26 |
| CISCEL, BEN H. Control Stick Steering for Stabilized Aircraft | *Jan.* | 33 |
| CLEMENTS, HARRY R. Canted Adjustable End Plates for the Control of Drag | *July* | 40 |
| COOK, FRANK R. Automatic Flight Control Requirements | *May* | 62 |
| CROSSFIELD, A. SCOTT. Flying Techniques with the Research Airplanes | *Jan.* | 56 |
| DANTZIG, GEORGE B., AND ALLEN R. FERGUSON. The Problem of Routing Aircraft | *Apr.* | 51 |
| DAVIDSON, GARETH M., LUTHER NASHMAN, PAUL H. SAVET, AND PHILIP KASZERMAN. Effects of Carrier Frequency Drift on Performance of Notch Networks in A.C. Servo Systems | *Feb.* | 61 |
| DEHMEL, R. C. The Flight Simulator Modification Problem | *May* | 102 |

| | Month | Page |
|---|---|---|
| **Design—** | | |
| Aerodynamic Design of a High-Altitude Rocket, A. W. Peppers | *Apr.* | 43 |
| Aircraft Design and Mission Compatibility, Frederick M. Gloeckler | *July* | 28 |
| Automatic Control of Aircraft Center of Gravity, Maxwell J. Lawrence | *Oct.* | 61 |
| Bases Unlimited, Ernest G. Stout | *June* | 42 |
| Canted Adjustable End Plates for the Control of Drag, Harry R. Clements | *July* | 40 |
| Considerations in the Design of Structural Models, Coleman Raphael | *Feb.* | 52 |
| Control Stick Steering for Stabilized Aircraft, Ben H. Ciscel | *Jan.* | 33 |
| Design Considerations for Cargo Aircraft, Winfield H. Arata, Jr | *June* | 72 |
| The Development of Oil-Cooled Generators, O. E. Buxton | *Aug.* | 21 |
| Effects of Boundary-Layer Control System Efficiency on Performance, Robert K. Wattson, Jr | *Dec.* | 49 |
| Escape from High-Speed Aircraft, Richard H. Frost | *Sept.* | 35 |
| High-Altitude Cabin-Pressurization Design Criteria Related to Future Transport Operations, L. M. Hitchcock | *Aug.* | 44 |
| Hope for Rational Seaplane Design, John D. Pierson and Charles E. Carver, Jr | *Dec.* | 26 |
| The Human Operator as an Aircraft Systems Component, John S. Brady | *Oct.* | 86 |
| The Kaman Hydra-Mechanical Clutch, W. N. Stone and N. R. Richmond | *July* | 45 |
| On the Danger of Combined Stresses in Pressurized Structures, M. Zaustin | *Dec.* | 45 |
| Pilotless Aircraft, Curtis L. Bates | *Apr.* | 56 |
| The Response Characteristics of Airplane and Missile Pressure Measuring Systems, Harold Vaughn | *Nov.* | 65 |
| The Role of Fluid Mechanics in Aeronautical Development, G. N. Patterson and Staff | *Feb.* | 27 |
| Safety and Reliability as Design Parameters, William I. Stieglitz | *Sept.* | 31 |
| Simplified Magnesium Air-Frame Design, J. P. Donald Garges | *Aug.* | 36 |
| Solved and Unsolved Aerodynamic Problems, K. E. Van Every | *Nov.* | 44 |
| Synthetic Fabric-Acrylic Resin Impregnates for Aircraft Canopy Edge Attachments, W. G. Carson and E. N. Robertson | *Mar.* | 44 |
| Take-Off Ground Run of an Airplane with Forced Circulation System of Boundary-Layer Control, A. N. Petroff and R. K. Wattson, Jr | *June* | 79 |
| Test Cell Augmenter Design, Richard D. Lemmerman and Harold J. Lockwood | *Mar.* | 37 |
| Variable-Stability Airplanes in Lateral-Stability Research, William M. Kauffman and Fred J. Drinkwater, III | *Aug.* | 29 |
| DOYLE, IRVING W. Effects of the Systems Approach on Reconnaissance Equipment Design | *May* | 80 |
| DRINKWATER, FRED J., III, AND WILLIAM M. KAUFFMAN. Variable-Stability Airplanes in Lateral-Stability Research | *Aug.* | 29 |
| DYKES, CHRISTOPHER. Instrumentation for Jet Transports | *Jan.* | 24 |
| **Editorial—** | | |
| Dinner Address at the Second National Turbine-Powered Air Transportation Meeting, Peter G. Masefield | *Nov.* | 40 |
| Electronics in Aviation, Rear Adm. Selden B. Spangler, USN | *May* | 54 |
| Fifth Conference Amenities, Robert E. Gross and N. E. Rowe | *Oct.* | 38 |
| Fifth International Conference | *Aug.* | 14 |
| IAS President 1955—IAS President 1954 | *Mar.* | 30 |
| IAS-RAeS Fifth Conference. Welcome Aboard! | *June* | 40 |
| International Angles | *Jan.* | 22 |
| Our Air Force Academy | *Sept.* | 23 |
| The Partnership of Science and the Air Force, H. Guyford Stever | *Apr.* | 38 |
| A Salute to Hugh L. Dryden | *Dec.* | 24 |
| Student Branch Activities | *July* | 26 |
| A Tribute to Hugh De Haven, T. P. Wright | *Feb.* | 22 |
| **Education & Training—** | | |
| Advanced Education for Aeronautical Engineers, Harold A. Bodley | *Sept.* | 24 |
| Documentation Problems Studied by AGARD Committee, John J. Glennon | *Nov.* | 79 |
| Graduate Study in Aeronautical Engineering, J. W. Carter | *Sept.* | 28 |
| **Electronics & Electrical Equipment—** | | |
| Analog Equipment for Processing Randomly Fluctuating Data, Francis B. Smith | *May* | 113 |
| Application of Electronic Simulation Techniques to the Development of Airplane Flight Control Systems, W. R. Monroe | *May* | 91 |
| Automatic Feedback Control and All-Weather Flying, Dunstan Graham and Richard C. Lathrop | *Oct.* | 70 |
| Automatic Flight Control in Air Transportation, M. Gould Beard and Percy Halpert | *May* | 66 |
| Automatic Flight Control Requirements, Frank R. Cook | *May* | 62 |
| A Compass-Controlled Directional Gyro System for Today's Fighter Aircraft, Harold E. Trekell and Harold S. Whitehead | *May* | 77 |
| Effects of Carrier Frequency Drift on Performance of Notch Networks in A.C. Servo Systems, Luther Nashman, Gareth M. Davidson, Paul H. Savet, and Philip Kaszerman | *Feb.* | 61 |
| Effects of the Systems Approach on Reconnaissance Equipment Design, Irving W. Doyle | *May* | 80 |
| Electronics in Aviation (*Editorial*), Rear Adm. Selden B. Spangler, USN | *May* | 54 |
| A Flight Investigation of the Performance of Low-Ceiling Visibility Measuring Equipment, R. P. Snodgrass | *May* | 120 |
| The Flight Simulator Modification Problem, R. C. Dehmel | *May* | 102 |
| The Human Operator as an Aircraft Systems Component, John S. Brady | *Oct.* | 86 |
| The Newest Instruments for Astronomical Navigation, Victor E. Carbonara | *July* | 36 |
| Past and Present Automatic Flight Control Development, George B. Johnson | *May* | 59 |
| Problems of Aircraft Construction for Electronic Magnetometer Survey or Detection, H. C. Wroton | *May* | 86 |
| What Can Electronic Simulators Do for the Missile Designer?, Floyd E. Nixon | *May* | 109 |
| A Wider Choice of Missile Control Instrument Functional Characteristics, B. C. Muzzey and V. J. Sims | *May* | 73 |
| ESHMAN, ANDREW N. Titanium Fastener Progress | *Apr.* | 48 |

| | Month | Page |
|---|---|---|
| FERGUSON, ALLEN R., AND GEORGE B. DANTZIG. The Problem of Routing Aircraft | *Apr.* | 51 |
| **Flight Propulsion—** | | |
| Before Afterburners, Frank F. Rand, Jr. | *July* | 32 |
| The Control of Turbojet Engines, Donald F. Winters | *June* | 32 |
| The Napier "Eland," A. J. Penn | *Feb.* | 43 |
| On the Heat Release Problem of High-Performance Rocket Propulsion, Rudolf H. Reichel | *Nov.* | 71 |
| The Orenda and the Future, B. A. Avery | *Jan.* | 46 |
| Recent NACA Investigations of Noise-Reduction Devices for Full-Scale Engines, Edmund E. Callaghan, Newell D. Sanders, and Warren J. North | *June* | 66 |
| **Flight Simulators—** | | |
| Analog Equipment for Processing Randomly Fluctuating Data, Francis B. Smith | *May* | 113 |
| Application of Electronic Simulation Techniques to the Development of Airplane Flight Control Systems, W. R. Monroe | *May* | 91 |
| The Flight Simulator Modification Problem, R. C. Dehmel | *May* | 102 |
| What Can Electronic Simulators Do for the Missile Designer?, Floyd E. Nixon | *May* | 109 |
| **Flight Testing—** | | |
| Flight-Test Instrumentation—Engineering and Instruments, Gilbert L. Roth | *Mar.* | 50 |
| Flying Techniques with the Research Airplanes, A. Scott Crossfield | *Jan.* | 56 |
| FROST, RICHARD H. Escape from High-Speed Aircraft | *Sept.* | 35 |
| GARGES, J. P. DONALD. Simplified Magnesium Air-Frame Design | *Aug.* | 36 |
| GILLMORE, K. B. Helicopter Flight Vibration Problems | *Nov.* | 73 |
| GLASGOW, C. S. Tooling Aspects of Heavy Skin Construction | *Jan.* | 38 |
| GLENNON, JOHN J. Documentation Problems Studied by AGARD Committee | *Nov.* | 79 |
| GLOECKLER, FREDERICK M. Aircraft Design and Mission Compatibility | *July* | 28 |
| GODDARD, BRIG. GEN. GEORGE W., USAF (Ret.). Requirements of Military Aircraft Design for Aerial Photography | *Oct.* | 66 |
| GORDON, ROBERT. Superperformance Rockets for Fighter Aircraft | *Aug.* | 27 |
| GRAHAM, DUNSTAN, AND RICHARD C. LATHROP. Automatic Feedback Control and All-Weather Flying | *Oct.* | 70 |
| GROSS, ROBERT E., AND N. E. ROWE. Fifth Conference Amenities (*Editorial*) | *Oct.* | 38 |
| GUSTAFSON, F. B., AND ROBERT J. TAPSCOTT. Helicopter Blade Flapping | *Sept.* | 46 |
| HALPERT, PERCY, AND M. GOULD BEARD. Automatic Flight Control in Air Transportation | *May* | 66 |
| HAMMER, E. WALTER, JR., AND ROBERT E. PETERSEN. Column Curves for Type 301 Stainless Steel | *Dec.* | 33 |
| HITCHCOCK, L. M. High-Altitude Cabin-Pressurization Design Criteria Related to Future Transport Operations | *Aug.* | 44 |
| HOOVER, COMDR. GEORGE W., USN. Instrument Simplification | *Aug.* | 16 |
| HOVGARD, PAUL E. The Comparative Performance of Helicopters, Convertiplanes, and Slow-Flying Airplanes | *Dec.* | 40 |
| **Institute of the Aeronautical Sciences—** | | |
| Aerophysics Development Corporation Joins IAS | *May* | 53 |
| Aircraft Manufacturing Records | *Jan.* | 20 |
| Air-Line Safety Records | *Aug.* | 13 |
| American Helicopter Society's Annual Forum Sets Record | *July* | 22 |
| Annual Business Meeting of the Institute | *Mar.* | 19 |
| Apply Now for Fellowship in Flight-Test Engineering | *Dec.* | 21 |
| ARDC Asks Engineers for Ideas and Inventions | *June* | 39 |
| Arma Division Joins IAS | *Oct.* | 36 |
| ARS Gives Awards and Fellowships to IAS Members; R. W. Porter Elected 1955 ARS President | *Feb.* | 20 |
| Automatic Control Courses | *Apr.* | 37 |
| Aviation Mural Presented to Western Headquarters | *Dec.* | 20 |
| Bane and Chanute Awards Presented | *Aug.* | 9 |
| Larry Bell Honored by U.S. Air Force | *Sept.* | 20 |
| William E. Boeing Honored | *July* | 24 |
| British Delegates Visit USAF and NACA Installations | *Sept.* | 19 |
| Brooklyn Poly Welcomes Students at Northeastern Regional Student Conference | *May* | 52 |
| Brooklyn Polytechnic's Conference on High-Speed Aeronautics | *Apr.* | 36 |
| CAI-IAS Joint Meeting | *Oct.* | 35 |
| Chance Vought, an IAS Corporate Member | *Apr.* | 36 |
| Conferences on Aeronautical Electronics and Telemetering Draw IAS Engineers to Dayton and Chicago | *Aug.* | 10 |
| Frank R. Cook Organizes Electronic Equipment Firm | *Dec.* | 22 |
| Detroit IAS Members Serve with Vocational Group | *Feb.* | 20 |
| Director's Report—1954 | *Mar.* | 22 |
| DOC Publication Available | *Feb.* | 21 |
| Educational Leaders Chosen | *Oct.* | 36 |
| Eleven Colleges Represented at Texas Section's Third Southwestern Student Competition | *July* | 19 |
| Fellowships in the Institute—1954 | *Mar.* | 25 |
| Fifth International Aeronautical Conference | *Feb.* | 19 |
| Fifth RAeS-IAS Conference | *May* | 51 |
| Flight-Test Engineering Fellowships Awarded | *June* | 38 |
| Jack Frye Announces New "Economy" Transport | *Nov.* | 38 |
| Government-Industry Research Committee Formed | *Feb.* | 21 |
| Guggenheim Medal Awarded to von Kármán | *Nov.* | 37 |
| Helicopter Society Holds Second Western Forum | *Nov.* | 37 |
| Helicopter Society to Meet | *Aug.* | 12 |
| Honorary Fellows for 1954 | *Mar.* | 25 |
| Honors for von Kármán | *June* | 37 |
| Hyatt Honored by Navy for VTO Development | *Dec.* | 21 |
| IAS Awards and Honors for 1954 | *Mar.* | 26 |
| IAS Electronics Session Planned for WESCON | *Aug.* | 10 |
| IAS Officers for 1955 | *Mar.* | 24 |
| IAS Pays Tribute to Major Reuben H. Fleet | *Aug.* | 12 |
| IAS Plaque Unveiled at Columbia University | *Mar.* | 23 |
| Langley Gold Medal Presented to Hunsaker | *June* | 39 |

| | Month | Page |
|---|---|---|
| **Institute of the Aeronautical Sciences,** *Continued*— | | |
| Lockheed's R. E. Gross Elected to IAS Presidency | *Jan.* | 19 |
| Los Angeles Section Conducts West Coast Conference for Students, Faculty, and Industry | *July* | 21 |
| Meeting on Pilot Escape | *Aug.* | 12 |
| Memorial to Air-Mail Pilots | *Aug.* | 12 |
| Memory of Dr. J. S. Ames Honored | *Feb.* | 20 |
| M.I.T. Names Will Hawthorne Visiting Professor | *Dec.* | 20 |
| NADMC Conducts Johnsville Tour for IAS Members | *Aug.* | 11 |
| New Corporate Member | *July* | 24 |
| New Corporate Member | *Oct.* | 36 |
| New York's Safety Convention and Exposition | *Apr.* | 36 |
| Newly Elected Members of the Institute Council | *Mar.* | 28 |
| Nuclear Development Associates, Inc., Joins IAS | *June* | 38 |
| Nuclear Engineering Meeting | *Nov.* | 38 |
| Patent Advisory Committee Formed; Two IAS Members Named | *Jan.* | 20 |
| Piasecki Establishes Plant | *Dec.* | 21 |
| President's Report—1954 | *Mar.* | 19 |
| J. L. Pritchard Presents Lecture Series | *Feb.* | 20 |
| Proceedings Available from Penn State | *Jan.* | 20 |
| Purdue Lists Conference on Fluid, Solid Mechanics | *June* | 38 |
| Roster of Members Section, 1955–1956 | *Sept.* | 121 |
| Safety Winners for 1954 | *July* | 25 |
| Seattle Conference August 8–10 | *July* | 17 |
| Seattle Section Sponsors Aviation Exhibit in Museum | *Dec.* | 21 |
| Second National Turbine-Powered Air Transportation Meeting Report | *Nov.* | 36 |
| Southeastern Student Conference Held at Virginia Polytechnic Institute | *July* | 18 |
| Tentative Programs for Electronic Conferences in Dayton and Chicago | *Apr.* | 35 |
| Tenth Annual Flight Propulsion Meeting | *June* | 35 |
| Treasurer's Report—1954 | *Mar.* | 20 |
| Tribute to R. H. Goddard | *Oct.* | 36 |
| Trophy for Soaring Flight | *Oct.* | 37 |
| The Twenty-Fourth Annual Meeting | *Dec.* | 19 |
| University of Maryland Dedicates Glenn L. Martin Institute of Technology | *June* | 37 |
| Col. J. G. Vincent Retires | *Jan.* | 20 |
| Wichita Univ. Presents Boundary Layer Control Course | *May* | 53 |
| Winder Aircraft Corporation a New Member of Institute | *Aug.* | 12 |
| Winners Announced in St. Louis Section's Student Paper Competition | *July* | 20 |
| Wright Brothers Lecture by R. L. Bisplinghoff | *Nov.* | 35 |
| **Instruments**— | | |
| Automatic Feedback Control and All-Weather Flying, Dunstan Graham and Richard C. Lathrop | *Oct.* | 70 |
| Automatic Flight Control Requirements, Frank R. Cook | *May* | 62 |
| A Compass-Controlled Directional Gyro System for Today's Fighter Aircraft, Harold E. Trekell and Harold S. Whitehead | *May* | 77 |
| Effects of Carrier Frequency Drift on Performance of Notch Networks in A.C. Servo Systems, Luther Nashman, Gareth M. Davidson, Paul H. Savet, and Philip Kaszerman | *Feb.* | 61 |
| A Flight Investigation of the Performance of Low-Ceiling Visibility Measuring Equipment, R. P. Snodgrass | *May* | 120 |
| Flight-Test Instrumentation—Engineering and Instruments, Gilbert L. Roth | *Mar.* | 50 |
| Instrument Simplification, Comdr. George W. Hoover, USN | *Aug.* | 16 |
| Instrumentation for Jet Transports, Christopher Dykes | *Jan.* | 24 |
| The Newest Instruments for Astronomical Navigation, Victor E. Carbonara | *July* | 36 |
| Past and Present Automatic Flight Control Development, George B. Johnson | *May* | 59 |
| The Response Characteristics of Airplane and Missile Pressure Measuring Systems, Harold Vaughn | *Nov.* | 65 |
| A Wider Choice of Missile Control Instrument Functional Characteristics, B. C. Muzzey and V. J. Sims | *May* | 73 |
| JOHNSON, GEORGE B. Past and Present Automatic Flight Control Development | *May* | 59 |
| KASZERMAN, PHILIP, LUTHER NASHMAN, GARETH M. DAVIDSON, AND PAUL H. SAVET. Effects of Carrier Frequency Drift on Performance of Notch Networks in A.C. Servo Systems | *Feb.* | 61 |
| KAUFFMAN, WILLIAM M., AND FRED J. DRINKWATER III. Variable-Stability Airplanes in Lateral-Stability Research | *Aug.* | 29 |
| LATHROP, RICHARD C., AND DUNSTAN GRAHAM. Automatic Feedback Control and All-Weather Flying | *Oct.* | 70 |
| LAWRENCE, MAXWELL J. Automatic Control of Aircraft Center of Gravity | *Oct.* | 61 |
| LEMMERMAN, RICHARD D., AND HAROLD J. LOCKWOOD. Test Cell Augmenter Design | *Mar.* | 37 |
| LEWIS, ROGER. Honors Night Dinner Address | *Mar.* | 32 |
| LEWIS, WILLIAM, JAMES W. USELLER, AND EUGENE V. ZETTLE. Effect of Heavy Rainfall on Turbojet Aircraft Operation | *Feb.* | 40 |
| LOCKWOOD, HAROLD J., AND RICHARD D. LEMMERMAN. Test Cell Augmenter Design | *Mar.* | 37 |
| MALZ, OTTO H. The Procurability Program of the Air Force | *June* | 56 |
| MASEFIELD, PETER G. Dinner Address at the Second National Turbine-Powered Air Transportation Meeting (*Editorial*) | *Nov.* | 40 |
| **Materials**— | | |
| Column Curves for Type 301 Stainless Steel, E. Walter Hammer, Jr., and Robert E. Petersen | *Dec.* | 33 |
| Fatigue Analysis of Aircraft Bolts, Harold G. Brilmyer | *July* | 48 |
| Fiber Metallurgy—Its Use for Slip Ring Brushes, H. B. Nudelman, A. G. Metcalfe, and C. H. Sump | *Dec.* | 31 |
| Simplified Magnesium Air-Frame Design, J. P. Donald Garges | *Aug.* | 36 |
| Synthetic Fabric-Acrylic Resin Impregnates for Aircraft Canopy Edge Attachments, W. G. Carson and E. N. Robertson | *Mar.* | 44 |
| Taming Titanium, Dave Adams | *Mar.* | 59 |

| | Month | Page |
|---|---|---|
| **Materials,** *Continued*— | | |
| Titanium Fastener Progress, Andrew N. Eshman | *Apr.* | 48 |
| **Meeting Reports**— | | |
| Air Safety Highlights, Welman A. Shrader | *Feb.* | 24 |
| A Diary of the Fifth International Aeronautical Conference, Welman A. Shrader | *Oct.* | 40 |
| 23rd Annual Meeting—Summary of Technical Sessions | *Apr.* | 59 |
| METCALFE, A. G., H. B. NUDELMAN, AND C. H. SUMP. Fiber Metallurgy—Its Use for Slip Ring Brushes | *Dec.* | 31 |
| **Military Aviation**— | | |
| The Air Research and Development Team, Lt. Gen. Thomas S. Power, USAF | *Apr.* | 40 |
| Aircraft Design and Mission Compatibility, Frederick M. Gloeckler | *July* | 28 |
| Bases Unlimited, Ernest G. Stout | *June* | 42 |
| Honors Night Dinner Address, Roger Lewis | *Mar.* | 32 |
| The Partnership of Science and the Air Force (*Editorial*), H. Guyford Stever | *Apr.* | 38 |
| Pilotless Aircraft, Curtis L. Bates | *Apr.* | 56 |
| The Procurability Program of the Air Force, Otto H. Malz | *June* | 56 |
| Requirements of Military Aircraft Design for Aerial Photography, Brig. Gen. George W. Goddard, USAF (Ret.) | *Oct.* | 66 |
| Superperformance Rockets for Fighter Aircraft, Robert Gordon | *Aug.* | 27 |
| MONROE, W. R. Application of Electronic Simulation Techniques to the Development of Airplane Flight Control Systems | *May* | 91 |
| MUZZEY, B. C., AND V. J. SIMS. A Wider Choice of Missile Control Instrument Functional Characteristics | *May* | 73 |
| NASHMAN, LUTHER, GARETH M. DAVIDSON, PAUL H. SAVET, AND PHILIP KASZERMAN. Effects of Carrier Frequency Drift on Performance of Notch Networks in A.C. Servo Systems | *Feb.* | 61 |
| **Necrology**— | | |
| William Coney | *Feb.* | 21 |
| Charles H. Day | *Aug.* | 13 |
| Ernest W. Dichman | *Nov.* | 39 |
| Ivan H. Driggs | *July* | 23 |
| J. D. M. Gray | *July* | 23 |
| Gerard P. Herrick | *Nov.* | 39 |
